

## BSP 1 and 2 at BOKU 2013/14 and 2014/15

Compulsory courses within the BSP (P):

<b>W-3 Joint Start-up Module</b>		
<b>Name of the course</b>	<b>Type</b>	<b>ECTS-Credits</b>
Start-up Module (in Eng.)	PJ	6

<b>P Organic Agricultural Systems and Agroecology</b>		
<b>Name of the course</b>	<b>Type</b>	<b>ECTS-Credits</b>
Soil Fertility and Soil Ecology in Organic Farming	VU	3
Crop Production Systems in Organic Farming	VU	3
Animal Production in Organic Agriculture	VO	4
System Analysis and Scenario Technique - Methods and Practices	SE	5
Ecology and Population Biology of Plants in Agro-Ecosystems	VX	5
Soil Ecology	VO	3
Plants and Their Environment	VO	3
Farmland Ecology	VO	1
Mountain Forest Dynamics and Fire Ecology	VS	3
<b>Total</b>		<b>30</b>

<b>W-1 Organic Agriculture</b>		
<b>Name of the course</b>	<b>Type</b>	<b>ECTS-Credits</b>
Ethics in Organic Agriculture*	SE	3
Technology in Organic Agriculture*	VO	3
Interdisciplinary Excursion on Organic Agriculture*	EX	2
Soil Physics and Soil Chemistry	VO	3
Rhizosphere Processes and Application to Agriculture and Soil Protection	VO	3
Conversion to Organic Farming - Interdisciplinary Project	PJ	4,5
Case Studies in Organic Grassland Management	SE	2
Ecological Plant Protection	VU	3
Protection of Natural Resources by Organic Farming	VS	3
Agricultural Engineering in Plant Production – Seminar	SX	4
Production Systems and Atmospheric Pollution	VO	3
Local Knowledge and Ethnobiology in Organic Farming – Introduction	VO	1

For students who have been chosen BOKU as their home university, courses within the BSP comprised 6 ECTS credits from the compulsory module “W-3 - Joint Start-up Module”, 30 ECTS credits from the compulsory module “P – Organic Agriculture Systems and Agroecology” and 24 ECTS-Credits from the module “W-1 - Organic Agriculture”, in which the courses marked with \* (with the amount of 8 ECTS credits) had been compulsory.
